

Emergency One Offers COVID-19 Testing at all Locations

COVID-19 molecular (PCR Swabs) and antibody testing is available to those who are concerned about being exposed to someone with the disease or demonstrating symptoms of fever, cough, or shortness of breath. A provider can assess your situation and determine if COVID-19 testing is appropriate.

If you are seeking COVID-19 testing for your job or return-to-work, any of our locations can help you through the process and provide you the results within 7 -10 days.

You may walk in or get in line, online at www.eoneurgentcare.com to access our providers and testing.
