

## Emergency One Offers COVID-19 Testing at all Locations

COVID-19 molecular (PCR Swabs) and antibody testing is available to those who are concerned about being exposed to someone with the disease or demonstrating symptoms of fever, cough, or shortness of breath.

If you are experiencing symptoms, please use our Eone Telemed service. You can [CLICK HERE FOR TELEMED](#). A provider will assess your symptoms and provide the appropriate next steps.

If you are seeking COVID-19 testing for your job, return-to-work, or for pre-operative surgery requirements, any of our locations can help you through the process and provide you the results within a few days.

You may walk in or get in line, online at [www.eoneurgentcare.com](http://www.eoneurgentcare.com) to access our providers and testing.
